

## CLAIMS

I claim:

1. Device for radiating light, comprising:

- 5           -a frame with a predetermined decorative shape,  
          -a substantially tube-like casing, comprising:  
          -a relatively large number of light sources arranged in the interior of the casing,  
          -conducting means for connecting the light sources in electrically conducting manner,  
wherein the conducting means are arranged in the interior of the casing, wherein  
10           -the casing is arranged on the frame in accordance with a predetermined shape.

2. Device as claimed in claim 1, wherein the light sources are LEDs.

3. Device as claimed in claim 1 or 2, wherein the light sources are connected in groups.

4. Device as claimed in one or more of the foregoing claims, wherein the light sources are positioned in the casing at a mutual distance of 1-15 centimetres.

15   5. Device as claimed in one or more of the foregoing claims, wherein the light sources are ordered in groups of 4-40 light sources.

6. Device as claimed in one or more of the foregoing claims, wherein the casing has a length of 1-250 metres.

7. Device as claimed in one or more of the foregoing claims, comprising light sources  
20 radiating different colours of light.

8. Device as claimed in one or more of the foregoing claims, further comprising switching means for switching separate light sources.

9. Device as claimed in one or more of the foregoing claims, further comprising switching means for switching groups of light sources.

10. Device as claimed in one or more of the foregoing claims, wherein the tube-like casing is at least partially light-transmitting.

11. Decoration for decorative lighting of (public) spaces, comprising:

-a device as claimed in one or more of the claims 1-10,

5        -fixing means for fixing the frame to at least a ground or facade of the (public) space, wherein:

-the decorative shape of the frame is emphasized in that the casing is arranged thereon.

12. Decoration as claimed in claim 11, wherein the frame comprises a metal construction.

10    13. Decoration as claimed in claim 11 or 12, wherein the frame is a spanning construction for fixing between two facades.

14. Decoration as claimed in one or more of the claims 11-13, wherein the frame is provided with fixing means for suspension from a cable stretched between two facades.

15    15. Decoration as claimed in one or more of the claims 11-13, wherein the frame comprises a vertical part for fixing to or placing on a substantially horizontal ground.

16. Decoration as claimed in one or more of the claims 11-13, wherein the frame comprises a substantially horizontal part for fixing to an facade.

17. Decoration as claimed in claim 16, wherein the horizontal part comprises wall fastening means.
